EDUCATION

Academlo - January 2023 - July 2023

Full Stack Web Development and Computer Science

<https://certificates.academlo.com/en/verify/72697045031951>

Universidad San Martín - November 2009 - October 2013

Finance and International Relations

Eight semesters

MAIN PROJECTS

Ecommerce Vanilla JavaScript - March 2023

An e-commerce developed in 4 days using JavaScript, HTML and CSS

- The app was developed consuming an Academlo API, using Jason, Async and Await functions.
- I developed this app with the collaboration of two colleagues using Git and GitHub.
- Link: <https://ecommercebb713.netlify.app/>

Pokedex - April 2023

The Pokedex was developed in 5 days using React.js, Redux and React Router Dom

- A different user experience was implemented, including navigation routes within the app, user identification, state management and protected routes.
- I learned a lot about improving CSS in the implementation of medium-scale projects.
- Link: <https://pokedex-66a770.netlify.app/>

Rick & Morty App - April 2023

The Rick and Morty app was developed in 3 days, using React.js, Axios and CSS.

- We handle list and keys, controlled inputs, error handling and pagination.
- We can view all your characters by location, making use of the Rick and Morty API.
- Link: <https://rickandmorty-7b6282.netlify.app/>

User Crud - May 2023

App developed in 2 days, using the CRUD (get, create, delete, update) method.

- Interaction with a local users API.
- Uses of HTTP methods and props practices.
- Link: <https://crud-d6c473.netlify.app/>

Ecommerce Backend-Node - July 2023

App developed in 5 days, using Node js, Postgress SQL.

- Implementation of endpoints for user management.
- We have implemented a login for new user registration.
- View, filter, and add products to the shopping car.
- link: <https://github.com/vicdan7/ecommerce-back.git>

WORK EXPERIENCE

Owner and administrator of a sport complex for indoor soccer - June 2018 - April 2023

Customer Service

- Attend and direct, general maintenance, and supplier management.
- Manage accounting records, income, expenses and operational cost. Assets and liabilities.
- Monthly report delivery to partners, total expenses and total earnings.

Chief culinary creation - Camp Waldemar USA - June 2013 - June 2014

I was in charge of creating culinary creations for various events and celebrations.

Head Waiter - Camp Wildwood USA - June 2012 - June 2013

I was in charge of organizing the dining areas and social lounges.

SKILLS

Programming language
